

QUARANTINE ON MEXICAN TRAIN

Two Cases of Smallpox on Torreon Train Closes the Port to Passengers.

Passengers on the train from Torreon, which arrived in Juarez Tuesday night, were held up at the international bridge Wednesday morning by federal health officers. Two cases of smallpox were said to have been discovered among the passengers on the train and Dr. J. W. Tappan, federal health officer, ordered a quarantine against any of the passengers coming to El Paso. They will not be permitted to cross for 22 days, the period during which any new cases of the disease is expected to develop.

Dr. W. C. Kirtz, city health officer, declared Wednesday morning that if either of the smallpox cases comes to this side of the river, he will place them in the eruptive hospital at once.

Four inspectors are now at work making a room to room canvass of the Mexican section of the city in search of any contagious diseases which may exist in these crowded tenements without being reported to the health officers of the city.

Three of the men are policemen and the fourth is a health officer. The policemen are Charles Barton, J. D. Jones and T. H. McAlister. The health officer is J. Q. Willis, the city fumigator. They are to report all cases of illness and where they are found they have been ordered to burn them. They have been instructed to advise the residents of the tenements regarding cleanliness and sanitation and to warn them of the danger from lice.

Public Health Board.
At a meeting of the board of health, the city council, the county health officers and the federal health officer, it was decided to take every precaution to prevent the spreading of any disease in El Paso. A committee was appointed composed of Dr. J. M. Thomas, Dr. J. W. Tappan, Dr. D. H. Huffaker, the state quarantine officer; Dr. James Vance and Dr. J. A. Rawlings, of the city board of health; and Dr. L. G. Witherspoon, of the smaller hospital. All of these, with the exception of Dr. Vance, were present at the meeting Tuesday afternoon. The committee will be known as the public health committee.

FALL FROM WAGON FATAL: TO FARM HAND IN MESA.
Mesa, Ariz., March 1.—Tremendous fortune, a farm hand employed by W. S. Dorman, was instantly killed by a fall from a load of hay on one of Mesa's business streets. The wagon tilted in a rut, Romero was thrown off and his back was broken.

STOCKMEN OF PLAINS MEET

Buyers and Sellers' Convention Opens in Amarillo With Large Attendance.

Amarillo, Tex., March 1.—Panhandle stockmen from all portions of the Plains country are either in Amarillo today or are on the way here to attend the Stockmen's Buyers and Sellers' convention, which opened here today to remain in session through Thursday.

The purpose of the convention is to bring the stockmen together for the perfecting of better methods of buying and selling cattle, and to give them an opportunity for seeing the advantage of Amarillo and a shipping and buying and selling point.

Arrangements for the convention were perfected by citizens acting through and with the board of city development, a committee of 15 citizens having been appointed to make the necessary arrangements. A sum of \$425 was raised for the big smoker to be given at the opera house for the visiting stockmen. Among the visitors are 20 or more Fort Worth cattlemen and bankers and more than 100 Kansas cattlemen are expected.

MESSANGER BOY AND AUTO TRUCK COLLIDE ON MILLS

Joe Gonzales, a messenger boy employed by the Western Union, was knocked from his bicycle at Oregon and Mills streets Wednesday morning about 8:30 o'clock when he was struck by a big motor truck owned by the Yonson-Dunnegan-Ryan company. Spectators state that the boy endeavored to cut across Mills street in front of the truck, which was traveling slowly.

The boy received a few bruises and a slight cut on his hand while the bicycle had two rims broken and the frame was bent.

A Ford touring car was slightly damaged by the Acme Sheet Metal Works Tuesday afternoon at 3:30 when it was hit by an automobile truck belonging to the Western Woodware company at Mills and Mesa avenue. The truck turned toward the curb to avoid hitting a small boy and struck the Ford.

Ignace Paderewski, the famous pianist, has given away his whole fortune (estimated at a million dollars) to help his stricken fellow Poles, and has now started on a tour of the world to accumulate another one.

WISH ARIZONA "DRY AS BONE"

State Temperance Federation to Initiate Laws to Restrict Liquor.

Phoenix, Ariz., March 1.—Earnest determination to make Arizona "as dry as a bone" was the outstanding feature of the annual convention of the State Temperance Federation. That Arizona will pass through another bitter campaign for the delegates instructed the executive committee to initiate a constitutional amendment making it unlawful for anyone to possess or use liquor.

When news reached the convention that the attorneys for the railroads, in conference a block away, had decided to recommend that liquor be shipped into Arizona, in spite of the fact that the supreme court had decided that importation for personal use is not illegal, the delegates rose and sang the Dextera.

Would Stop Liquor Advertising.
In addition to deciding upon the amendment to an absolutely "dry" constitution, the convention directed the committee to take steps immediately to initiate laws for the following purposes:

Prohibiting liquor advertising in newspapers and moving picture shows, or by any other medium.
Providing for the destruction of liquor seized by peace officers.
Prohibiting the interstate shipment of intoxicants.

Making a federal liquor license prima facie evidence of violation of the prohibition amendment.
Declaring any place where liquor is sold or given away a public nuisance and closing it for one year.

Memorializes Congress.
The convention memorialized congress, praying for an amendment to the Webb-Kenyon act prohibiting the shipment of liquor into any dry territory. Congress was also asked to pass pending bills making the District of Columbia and Hawaiian Islands prohibition territory.

Tucson Man Elected President.
Thomas K. Marshall of Tucson was elected president for the ensuing year, succeeding Dr. John Wix Thomas of Phoenix. The other officers elected for this year are: Vice president, R. W. Getzinger, Phoenix; treasurer, J. O. Saxon, Phoenix; general secretary, C. J. Banks, Phoenix; field secretary, Grady Gammon, Tucson.

The executive committee: Dr. John Wix Thomas, J. W. Martin, Dr. W. W. Wilkinson, Miss Grace Campbell, Ray C. Barker, L. W. Cogswell, D. E. Jantzen, E. D. Raley, Harry Blatz, Dr. H. A. Hughes, Phoenix; J. W. LeSueur, Mesa; Peter T. Robertson, Yuma; B. Britton Gottsberger, Miami; David K. Udall, St. John; Rudolph Kuchler, Glendale; Moss Drachman, Tucson.

ROCK SLIDE OBSTRUCTS SALT RIVER; MACHINERY DAMAGED

Phoenix, Ariz., March 1.—Rock sliding into the Salt river just below the Roosevelt dam on Tuesday caused an obstruction in the river which resulted in causing water to back up the generating canal. Considerable damage was done to the electrical machinery, it is said. A transmission line also was torn down.

A previous rock slide, occurring during the recent heavy rains, was the principal cause done to the Roosevelt dam road by the rains, according to a committee appointed by the Phoenix city council to investigate the condition of the road to the dam.

The committee, composed of J. C. Adams, P. C. Gotten, O. B. Staples, C. D. Darrin, Arthur Lohr, H. J. McHugh and J. C. Chilson, caused the road to be closed, without any trouble.

MISSIONARY TO TELL MEN'S CLUB ABOUT TURKISH MEN
Rev. J. K. Brown, the missionary to Turkey, who is here for the Laymen's Missionary Movement convention next week, will give a talk before the Men's club of the First Presbyterian church Thursday evening on the men of Turkey and how they live. This meeting will also be the annual one for the election of officers and the planning of the club activities for the year. The Men's club is now campaigning for the Missionary convention next week and the canvass will be closed Thursday night at the annual meeting. It is expected to enroll 100 men for the meetings next week.

Five Facts You Should Know

- (1) That disease is the result of a disordered condition.
- (2) That when we correct the disordered condition, we eliminate the disease.
- (3) That the blood is the carrier of poisons throughout the body.
- (4) That to successfully treat any disease originating in the blood, we have to treat the blood, as the cause.
- (5) That S. S. S. is the most reliable remedy for removing impurities from the blood.

S. S. S. is no experiment of today, but is a successful remedy for the blood that has been a blessing to thousands of sufferers for the last fifty years. There is nothing mysterious about S. S. S. It is an extract from native herbs, roots and bark, each known for its peculiar medicinal value. These ingredients combine and act in a beneficial and helpful way with nature. It doesn't matter whether your case of blood trouble is one of the many forms of Rheumatism, or Catarrh, Scrofula, Contagious Blood

Poison, chronic skin trouble, or any other form of blood trouble. S. S. S. will go directly to the seat of the trouble; giving the blood a thorough cleansing, driving out the impurities in a natural way, and leaving the blood pure and refreshed, ready to do its full duty in building the tissues up to a normal and healthy state. Begin today on a bottle of S. S. S. and note how soon you will begin to feel relief. We will gladly give special advice and free consultation. If you are in doubt about the nature of your case, write about the nature of your case, Room 73, Medical Department, Room 73, THE SWIFT SPECIFIC COMPANY, ATLANTA, GEORGIA.

All cigarettes are pure, but—

purity alone doesn't make a cigarette SENSIBLE.

We don't know of a single one of our competitors who doesn't make his cigarettes of pure tobacco.

But a pure cigarette that didn't taste just right wouldn't do for you, would it?

And to be really sensible a cigarette must give you more than purity and a good taste.

It must be cool and friendly to your throat and tongue. And it must leave you feeling fine after smoking all day.

Fatimas are not the only cigarette that measure up to all these requirements. There are other sensible ones.

But Fatimas seem to have a big margin in their favor on their good taste. Otherwise they could not outsell all other cigarettes costing over 5c.

You can't tell whether they will just suit your taste until you try them.

At the same time, you can easily prove how sensible they are by these two tests.

Most men who try Fatimas say "Good Bye!" to all other cigarettes right away. That's why Fatimas sell so fast.

Why don't you try Fatimas today?

Logan's Hygiene Tobacco Co.
FATIMA was the Only Cigarette Awarded the Grand Prize, the highest award given to any cigarette at the Panama-Pacific International Exposition.

"Distinctly Individual"

TWO TESTS FOR ANY CIGARETTE

The taste of the cigarette—according to a leading tobacco journal—is up to the smoker. But there are other qualities that you are going to stick to for your steady pleasure. Here are a couple of tests that may help the average smoker to choose more wisely between different kinds of cigarettes.

The first test is for coolness, which means more comfort to the throat and tongue. Light any cigarette, draw in a cloud of smoke—small, ordinary puff it to your mouth for a few seconds. Hold it "dead" around against your tongue and throat. Now blow out the smoke. If the cigarette contains a high grade of mild tobacco leaves, combined in just the right proportion, it will always feel cool and smooth both to your throat and to your tongue.

In the other hand, if the proportions are not right and if the cigarette contains inferior grades of tobacco or hidden nipping sting at the tip of your tongue or that "sawdusty" tickle in your throat, after smoking all day?

If the tobacco in the cigarette includes a correct proportion of mild grades—and is mellowed by age—and if it has been so blended as to bring out the best qualities and to neutralize any unpleasantly strong or harsh notes, you will be able to smoke the day without feeling any effect from it.

But with another cigarette in which the blend is less skillful, even though the tobacco is of the highest grade, you will find along toward the end of the day that you are likely to have that feeling of having "smoked too much."

Clip out these tests and try them on Fatima

A Sensible Cigarette

Join the Army and Get \$4,000 a Year!

Arthur Dunn says in March Sunset that the actual efficiency of our army means an annual cost of \$4,000 a man.

He insinuates that France and Germany could have 1,500,000 men in New York harbor before we could get 20,000 men there to meet them.

He diagnoses the disease and proposes a remedy which will give us peace with honor and preparedness without pugnacity.

If the March Sunset contained nothing else it would be well worth your buying and reading.

Can California Go Dry?

That's another article by Arno Dosch telling how hard it is to try and carry water on two shoulders. It shows that California's problem of wet or dry has more angles to it than that of any other state in the Union; the decision of California as to prohibition may be the Waterloo of one side or the other.
